JOIN THE MISSION TO END VETERAN SUICIDE.

The Trained Military Assistance Provider (TMAP) Program is a new initiative to reduce suicides and increase lethal means safety for service members, veterans and their families.

Developed by the Maryland Governor's Challenge to Prevent Suicide Among Service Members, Veterans and their Families, this advanced training in military culture, risk assessment and safety planning is *free to all Maryland-based primary care staff*.

EVERYONE NEEDS TRAINING

People who die by suicide are more likely to have seen a PCP in the previous month before their death than any other health care provider.
